

Terms of the “OTE Satellite Internet” Programs

The prices include 23% VAT and regard 24-month length connections.

Static IP can be added or removed at any time, in any Program. There is no minimum duration commitment.

The special equipment, with lump-sum 350€ of the total cost, is provided free of charge for a limited amount of time.

The lump-sum activation fee of 99€ is addressed exclusively to the new subscribers of the service, given that they procure the equipment from OTE.

In case there is a disruption before the 24 months have passed, a lump-sum disengagement fee of 250€ is charged.

If the “OTE Satellite Internet” Program is converted into a Program of a lower monthly fee (within or after the commitment period), a lump-sum relegation fee of 25€ is charged at each time.

Standard installation from an OTE authorized installation technician: 85€ for the “OTE Satellite Internet” and 110€ for a simultaneous installation of “OTE Satellite Internet” and “OTE TV via Satellite”. (see analytically in www.ote.gr/Satellite_Internet)

- The “OTE Satellite Internet 100” Program is provided with an Acceptable Use Policy: during the consumption of data volume from 35 Gb-100Gb, for the hours 17:00-23:00 only web browsing and e-mailing are provided, whereas from 15:00-17:00 and 23:00-00:00, the applications that

consume a lot of bandwidth are under-prioritized (f.ex. video streaming, file downloading), so a lower quality of video or buffering may be noticed.

NOTES

- The programs do not include telephony and do not require the possession of any other OTE service from the Client.
- The estimation of the data volume is performed according to the activation date of the program.
